DETAILED ACTION

This office action is in response to applicant's amendment filed October 6, 2005.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Orminston on December 20, 2005.

The application has been amended as follows:

Claims

In claim 23, Line 2 after "second surface" insert - -perpendicular to and- -.

In claim 24, Line 2 after "second surface" insert - -perpendicular to and- -.

Allowable Subject Matter

Claims 23 and 24 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious a lead extending along a first surface of a chip to at least a second surface that is perpendicular and intersecting the first surface with solder balls having a first portion dispensed in an encapsulation that substantially encapsulates the chip and leads, and the first portion contacting the lead with a second portion

protruding from the encapsulation including all the limitations of either independent claim.

While balls having a portion disposed in encapsulation contacting a conductive member while a second portion protrudes from the encapsulation is known in the art as evidence for example by Usukinu (JP405082582). The conductive members are formed at a distance away from a second surface that is perpendicular and intersects a first surface. Alternately balls formed on leads protruding from encapsulant is formed on leads that are not on a first chip surface as claimed as shown for example in Yamashita (U.S 5,763,939).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Mitchell whose telephone number is (571) 272-1931. The examiner can normally be reached on M-F 8:00-4:00.
